Patented **Multi-Ripper Teeth**
The most effective ripping teeth in the world

Sharc technology products break rock or frost 4 times faster than a hammer, at a fraction of the cost ripping the sides and bottom flat, with no depth limitation effectively increasing the force of your machine by two class sizes

Your excavator or backhoe will gain significant force advantage, applying the maximum breakout force individually to each tooth, (approximately 8 times that of a standard bucket,) using our patented "Staggered Shanks on an Arc" technology

Celebrating our 14th year designing innovative products made in the USA
